

Site Tablet

SPECS

Take leasing beyond the confines of your leasing office with the SiteTablet® iPad/Android application. You'll have mobile access to community information, real-time pricing and availability, applications, and leasing that syncs directly with your property management software. Whether you're carrying SiteTablet out on property or using it as a kiosk in the lobby, you'll always be ready when your prospect is.

BENEFITS

MOBILE LEASING AGENTS

Leasing agents are able to go mobile and complete everything away from the office. Show floor plans, availability, photos, maps, local community information, and have access to guest cards, applications, and lease signing.

NO MORE LEASING BINDER

SiteTablet eliminates the clutter, human error, and maintenance of the leasing binder. It automatically syncs with your property management software and ProspectPortal®.

24-HOUR ACCESSIBILITY

With 24-hour availability, SiteTablet can be used in-office or as a lobby kiosk, allowing your residents to pay rent after closing time or request maintenance while you're busy with a prospect.

ADMINISTRATION

FEATURES

LEASING HOTSHEET

With one tap, agents can pull up the property hotsheet, see which units are available, view pricing, and effectively attach new leads to those units.

ENTRATA™ FUNCTIONALITY

Access resident information, work orders, payments, and the full Entrata platform, all on your tablet.

PAPERLESS LEASE SIGNING

Prospects and residents can sign leases right on the tablet with our LeaseExecution integration

RESIDENT PORTAL ENROLLMENT

Upon move-in, residents can enroll in ResidentPortal™ with the help of your leasing agent

PARCEL TRACKING

Property staff can submit package batches and allow residents to sign for pick-ups.

MOBILE LEASING OFFICE

FEATURES

GUEST TOURS

Use SiteTablet as an engagement tool for guest tours. Arrange furniture with the virtual floorplan organizer, show neighborhood information, or even look up availability at other properties.

GUEST CARD ENTRY

Guests can input their information right on the tablet and then that data is automatically synced to your lead management pipeline for easy follow up.

KIOSK MODE

Properties can switch to kiosk mode and provide visitors with availability, photos, tours, property details, guest card entry, and more.

ELECTRONIC PAYMENTS

Residents can pay rent electronically by ACH or credit card.

WORK ORDERS

Residents can submit work orders which integrate with Entrata and your PM software.

OTHER

FEATURES

CACHED ENTRY

All data and property information is cached allowing leasing agents to have full access even when WiFi is unavailable.

UNIVERSAL INTEGRATION

SiteTablet integrates with other software vendors like revenue management to maintain current pricing and availability information

PLATFORM AGNOSTIC

SiteTablet is available for both Apple and Android devices, giving you the flexibility to use the technology that fits best for your properties.

“SiteTablet has allowed our site teams to have all the information about their community and neighborhood right at their fingertips. We definitely anticipate our leasing offices going through the full transition to mobile in the coming years and SiteTablet is allowing us to make the first step in that direction”

Jennifer Staciokas
Lincoln Property Company

“Having the leasing team mobile is a huge bonus. Our associates are able to complete the guest card, preview availability, show photos and discuss qualification criteria using SiteTablet. Most impressive is being able to have the customer complete the application and pay the deposit while still in the model!”
